

Please Note

We are pleased to announce that Bürkle has entered into a Distribution Agreement with Stiles Machinery of Grand Rapids Michigan, combining our forces to offer manufacturing solutions for the woodworking industry. This agreement applies to the United States and Mexico markets only. Bürkle North America will continue to manage the Canadian market from our office in Charlotte, North Carolina.

We are all excited about the synergy of Bürkle's product range, quality equipment, and system solutions coupled with Stiles' knowledge of the U.S. market and complementary product lines which assures the U.S. customer receives the best possible process solution and after sale service.

Effective January 1st, 2011 all parts requirements for Bürkle Woodworking Equipment for the United States and Mexican market should be channeled through Stiles Machinery at 616-698-7500. We know from time to time that you have been working with Cindy Kiefer in the Bürkle North America office. Cindy will continue working with Stiles to help meet your parts requirements. But we would appreciate you changing your records due to this new marketing distribution change. Parts Orders for the Canadian market will continue to be serviced by Bürkle North America at 714-379-5090.

We would like to thank you for your patronage over the past years, but know that the changes that we have implemented will bring about a stronger product offering of Bürkle equipment to the United States/Mexico market.

Sincerely,

Richard Crowe
President, Bürkle North America, Inc.

Brent Warren
Vice President, Bürkle North America, Inc.
